# **ADULT READING AND WRITING**

## ADULT READING AND WRITING

Adults need help with learning computer skills. Many also need help with basic reading and writing.

About 1 in 5 adults in our country have difficulty with reading.

Sometimes this may be due to a learning disability or other factors that hindered them from completing course work in school.

## **ADULT READING AND WRITING**

- Many adults need someone to assist them in improving reading skills.
- This will help them improve their job skills.
- Understand notes, reports from their children's teachers.
- Understand medical forms, prescription information and legal documents.

Share the gospel. Help students learn to read the Bible.

Offer encouragement and love as you share JESUS.
